

THIN AND STRETCHABLE MATERIAL WITH SOFT METALLIC AND IRIDESCENT FINISH.

This thin, stretchable and iridescent heat transfer material changes color depending on the angle from which it's viewed. Available in five shimmering shades. Chameleon heat transfer vinyl offers a subtle iridescent effect on white backgrounds, a more pronounced colorful effect on dark garments, and is excellent for creating tone-on-tone designs.

AVAILABLE IN

50 cm x 22,8 m rolls
